Many dissident Whites will notice that there are many factions in the online universe of race realists. Some are openly gayops or larpers, we think of Weev or Molyneux. Then there are conservatives who broch the topic, like Ann Coulter or Pat Buchannan. I'd describe them as paleocons: people who like everything about America…from the 1950s. Basically they want America when it was less icky. There are random anonymous accounts on twitter that post all sorts of messages and ideas. Then you have people like Richard Spencer or David Duke, who've certainly said some great stuff, but who've accomplished nothing. Then there's TRS run by jew Mike Enoch which is essentially a vulgar boys club. Then there are people like Greg Johnson or Thomas Dalton: people who've done serious intellectual work into understanding just why the West is so anti-White.

In all of this, there is a common thread: for the most part, complete and utter disorganization. But to be fair, some good work. And this brings me to the alt-right, which was founded to become a breading ground for blaming all the problems White people face on liberalism or capitalism. Take one quick look through my blog and you'll find I share this sentiment: there's no one more anti-liberal or anti-capitalist than myself. Though often, this narrative skirts over the fact that this wasn't White elites who did this all by themselves, as though White people left to themselves with their own elite would've created the anti-White hellscape we're currently living through. There was and is a hostile ethnic group, namely jews, who have been a parasitic diaspora

class in White countries. Enter, Paul Gottfried. He coined the term paleo-con for those who were more rad-conservative than Newt Gingrich perhaps, was very critical of American foreign policy and pretended to stick up for marginalized White groups: Southerners, Germans and Christians.

But he's a jew! By definition, he is our enemy. Mike Enoch is also a jew and that doesn't stop some Whites from being taken in by the pro-Palestine larping. This is like taking marching orders from mongrels. We don't need these people; they don't belong to our side. The fact that the alt-right was founded by a jew and Spencer's mentor tells you all you need to know about the kinds of tactics these people engage in: demoralization, anti-Christianity, shitting on all aspects of the West's past, hot contrarian takes and general anti-pragmatism. They will also dismiss you if you viscerally refuse to live around non-Whites as a "racist liberal". Why the fuck are you here if you don't want non-Whites out of our homelands? These people are cancerous and the sooner they are discredited the better.
